---

### SKILLS

HTML5	Git	Node.js	Express	Angular
CSS3	D3	JSON	Javascript	MongoDB
React	JQuery	SASS	GULP	API'S

---

### PROJECTS

FIND ALL LIVE SITES AND SOURCE CODE ON MY PORTFOLIO AND GITHUB

#### Silverstone

Remade Website of the famous silverstone British Grand Prix, but giving the user the ability to create their events on the website, rather than using the Mongo and Node

#### DevGlobe

Made an application that prospective DevMountain students will use to see the origins of DevMountain alumni, as well as their current whereabouts using a globe written in D3. There is also pages displaying cost comparisons and employment info, with graphs also written in D3

---
